## PROJECTS

### Easy-Bazaar

- Developed using MERN Stack
- Hosted on AWS via CI/CD Pipeline
- Fully functional with different views for user, sellers and admin and it also has integrated with payment gateway for checkout
- Customer can directly talk to the admin/seller through chat functionality and can also search anything through their voice
- Provided separate seller & admin dashboard to manage things easily
- Google OAuth Authenticated

### Social Media

- Developed using MERN Stack
- Hosted on AWS via CI/CD Pipeline
- Allows users to share interesting events that happened in their lives
- User can share posts, like & comment, search other people's profiles, follow/unfollow other users & reset password via email

### Expense Tracker

- Developed using React.js
- Helps to track user's expenses & income
- Integrated Speechly api for voice capabilities

### Resume Builder

- Developed using React.js
- Helps to create resume in less time
- No need to sign up
- Used Context api for state management

### Lead-Tracker (Chrome Extension)

- Developed using Vanilla Javascript
- Deployed on chrome web store
- Helps to fetch & store URL from any website for long time
